企业简介

COMPANY
INTRODUCTION

安徽山合新材料有限公司生产的PET打包带(又称塑钢打包带)是一款广泛应用于包装行业的重要材料。具有高强度、柔韧性好、环保、耐腐蚀性强、美观的特点;能够广泛应用于物流、钢铁、造纸、电子化工和建材等行业,用于捆绑如纸箱、木箱、托盘,钢材、管材,纸卷,电子产品及配件等。打包带规格和型号多样,可以在运输过程中牢固地捆绑货物,确保货物在运输和存储过程中的安全。

产品简介

PRODUCT
INTRODUCTION

我们是采用废旧涤纶布作为主要生产原料,一步直接生产附加值高的聚酯塑钢带产品,通过独有的液相增粘技术以及后道高效的生产线实现了回收利用的升级,不仅解决了废旧纺织品的回收利用问题,还创造了更高的附加值。将废旧纺织品制成塑钢打包带在环保方面有以下一些贡献:

一资源回收利用:减少了对原生材料的需求,降低了纺织废料对环境的污染和填埋压力,有助于节约资源。例如,大量的废旧衣物等纺织品如果不加以利用,可能会占据大量的垃圾填埋空间。

一节能减排:生产塑钢打包带的过程中,相比使用全新原材料,利用废旧纺织品可以降低能源消耗和碳排放,因为废旧纺织品的再加工通常比从原始材料开始生产所需的能源要少。

一减少废弃物:避免了废旧纺织品直接进入垃圾处理系统,减少了废弃物的产生和处理成本,对环境保护有积极意义,近年的数据统计,每年纤维消费总量约3000万吨,人均22.4公斤。每年在生产 and 消费环节产生600万吨左右废旧纺织品(不包括存量),并以每年超过10%速度快速增长。

Dear exhibitors, dear visitors,

It is my great pleasure to welcome you to swop – Shanghai World of Packaging 2025. As a proud member of the Interpack alliance, swop continues to build bridges across continents and industries, connecting global innovation with regional opportunities.

For ten years, swop has embodied the spirit of progress that drives the packaging and processing industry, demonstrating a commitment to quality, creativity and sustainable growth. We are particularly pleased to see an increasing number of international companies participating, which reflects swop's growing global relevance and its vital role as a hub for exchange and collaboration.

This year's edition places a strong focus on intelligent, sustainable and globally connected packaging solutions. As digitalization, AI and low-carbon technologies transform the industry, swop 2025 showcases how innovation, efficiency and environmental responsibility are shaping the next decade of development. At the same time, it underlines the vital importance of personal, face-to-face connections in building lasting business relationships in China – a market where being present locally remains key to long-term success. Each year, swop strengthens its position as a must-attend event for the Chinese processing and packaging sector, fostering trust, collaboration and opportunity.

We look forward to celebrating this milestone year with our partners, exhibitors, and visitors, and exploring how collaboration and innovation continue to shape the future of the global packaging industry.

As the global economy advances toward greater intelligence, sustainability and integration, packaging has gone beyond its traditional function to become a driver of value-chain upgrades, a builder of brand value, and a force for sustainable development.

As a proud member of the interpack global alliance, swop continues to bring together cutting-edge technologies, ideas and resources from around the world. Dedicated to building a key platform that drives global packaging innovation, it has now become the largest subsidiary exhibition under the interpack portfolio.

This year, swop focuses on several priority areas, such as AI and digital packaging, sustainable materials and circular design, as well as lightweight and personalized solutions – and presents a comprehensive, one-stop display of the full industry chain, from packaging machinery, material innovations to finished packaging, label printing and overall design. The show has reached a new scale: the exhibition area exceeds 70,000 square meters and brings together over 950 high-quality exhibitors from around the globe, including national pavilions from Germany, Italy, Switzerland, Finland, South Korea and Turkey. We expect more than 40,000 trade visitors to come to explore new opportunities and together shape the future landscape of the industry.

I am pleased to announce that, beginning in 2026, swop will be officially renamed interpack China. This is more than a change of name – it marks our even deeper integration with the global packaging ecosystem and our commitment to bringing a broader international perspective to China's market. Going forward, interpack China will continue to collaborate closely with global partners to explore opportunities in intelligent manufacturing, innovative materials and the cultivation of future industry talent, among other areas.

My sincere thanks go to Adsale Exhibition Services Ltd. for their close cooperation, and to the associations, institutions and every colleague in the industry for your long-standing support. It is thanks to each of you that swop has achieved this extraordinary decade of growth and is now poised to enter an even more impactful stage.

Finally, I wish you an inspiring and rewarding swop 2025 – full of new insights and meaningful connections. Meanwhile, we warmly invite you to join us at interpack 2026, which will be grandly held in Düsseldorf, Germany, from May 7th to 13th. Let us reunite and gather for a pinnacle event where wisdom and innovation converge.
